# Weather Calendar

Name: \_\_\_\_\_

| Weather | Color   | Total |
|---------|---|-------|
| Sunny   |    |       |
| Cloudy  |   |       |
| Rainy   |  |       |

Keep track of the weather by coloring what the weather is each day. Use 3 different colors to represent the 3 different types of weather. When we return to school we will count the total amount for each and graph our findings!
